Flash Lock Password Protection Software Download - USB 2.0

Where can the USB 2.0 password protection software be obtained?

Certain of the TDK Life on Record flash drives ship with Flash Lock, a password protection utility for the Private partition of the drive. In the event it is inadvertently deleted from the drive it can be downloaded here.

OS: Windows 10, Windows 8, Windows 7, Windows Vista, Windows XP & Windows 2000

Software Version**:** 2.37 No driver is required for the TDK Life on Record flash products on these operating systems.

Password Protection Software Application

Please extract the content to a folder on your hard disk. The content consists of the password protection application:

1. **Flash LOCK_v2.37.zip** for Public/Secure Partitioning & Logon/Logout from Secure Partition.
2. **Flash LOCK User Guide** for more details on how to use the FlashLOCK software.

Note: The above download is only applicable to the USB 2.0 TDK Life on Record flash drives in the following Product Identification Number (PID) ranges:
    PID = 0528 - 0529, PID = 0618 - 062E, PID = 0650 - 065E, PID = 067E - 067F

To determine the Product Identification Number (PID) of a device, download ImnUSBView. Place IMNUSBView on your desktop. Plug in the flash drive, wait for flash drive to properly load, then open ImnUSBView & click on Scan for Devices. The VID, PID and drive letter will appear.

ImnUSBView.exe

Note: For USB 3.0 drives, see this article, AA-00384.
